

FIRST STAGE ... SIMPLE UNCOMPLICATED PNEUMONIAS: extracted from Borland's Pneumonias

REMEDY	ONSET	PALLOR/TEMP	TONGUE/MOUTH	COUGH	SPUTUM	THIRST	MODALITIES	MENTALS	MISC KEYNOTES
ACONITE	Sudden	Face: bright red	Tongue: dry & light	Dry, constant, short	Scanty	Thirst: very	Well propped up	Restless	Pupils contracted
	Violent	Very flushed	or no coating	from dry throat	Blood streaked	> cold drinks	lying on back >	Acute anxiety	1st 24 hrs mainly
		Skin: hot, dry	Mouth: hot/tingling	Stabbing/cutting	bright red		Lying L side <	Fear of death	
		Extremities: cold	Fever: high	pains, coughing <			Late evg/midnight <		
			Pulse: fast/bounding	Lungs: L side					
FERRUM PHOS	Slower	Face: flushed during	Tongue: dark red	Incessant	Blood streaked	Thirsty	Any movement is	Sensitive to noise	Nosebleed after
		cough (cheekbones)	Swollen	Tormenting (irritation	bright red	> Cold drinks	painful (lungs)	Wants rest/quiet	coughing
		pale otherwise	Fever: low grade	behind sternum)		Sweetish taste	4am-6am <		Can be needed at
		Pale around mouth	With chilliness	Sharp pains chest		(+ > sour)			other stages
			Pulse: fast/bounding	Lungs: R side					
BELLADONNA	Sudden	Face: bright red	Tongue: dark red	Dry painful, tearing	Scanty	Thirstless	Cannot lie on affected	Exciteable/crying	Pupils dilated
	Violent	Skin: hot, burning	Mouth: dry/hot/burns	Sensitive chest wall			Bright lights <	Restless	Photophobia
			Fever: high (very)	cough & touch <			Dark room >	Delusions sees	1st 36 hrs mainly
			Pulse: bounding	Lungs: R side (or L)			Motion < (cough)	things	
			Tongue: dark red						
IPECAC	Slower	Face: flushed/dusky	Mouth: sticky	Suffocative fits	Profuse	Thirstless	Hates stuffy rooms	Miserable/sick	With gastric upset
		Pale after coughing	Tongue: clean	(paroxysms)	Difficult to raise		Fresh air >	Exhausted	Vomit before cough
		Lips: pale	(or thick coating)	Cough w/retching	Stringy			Difficult to please	Violent sneezing
		Skin: hot/sweaty	Fever: moderate		Blood stained			refuses things	attacks
					Rattling			asked for	

Aconite vs. Ferrum phos

Similarities: pulse, fever, thirst, sweetish taste

Differences: TONGUE (Acon = pale, Ferr-p = dark red) ... IRRITATION: Acon = throat, Ferr-p = sternum ... Acon = 1st 24-36 hours (of being sick), Ferr phos 1st 3+ days

Ferrum phos is MORE TIRED, want to be alone/be quiet | Aconite is TERRIFIED esp. of dying, wants someone there all the time,

Aconite vs. Belladonna

Similarities: onset, red face, heat, burning fever | Differences: pupils (sensitivity to light), thirst, side (lungs).

Acon. Is more anxious/terrified of death, Belladonna more delusional/exciteable and cryin gout
